VICE PRESIDENT 'CHIEF PARTNER'

Harding Would Elevate Office To Position Of Dignity

MEMBER OF CABINET

With Voice In Nation's Affairs Is Planned For Coolidge

Marion, O., July 10.—Senator Warren G. Harding, the Republican nominee, announced today his intention, if elected President, of inviting the Vice President to participate, ex-officio, in all cabinet conferences.

A bulletin issued from the Harding headquarters says:

"Senator Harding believes the country would greatly profit thru the participation by the Vice President in the cabinet conferences of the administration."

"It not only would elevate the office of Vice President, but would give to the President the sound advice and able assistance of his chief partner in handling the nation's affairs."

Team Work Displayed.

Senator Harding conferred with Gov. Calvin Coolidge, of Massachusetts, his runningmate, at Washington two weeks ago on the issues of the campaign. He has received numerous letters from every section of the country commending him upon this display of team work. His announcement today is a reply to these letters.

"The sort of government I have in mind," commented the senator, "ought to take advantage of the capacities and services of the Vice President, who is the second officer of the government. I don't know why it hasn't been done long ago. Governor Coolidge is an experienced American executive and should have helpful ideas."

The plans of Senator Harding with respect to his use of the Vice Presidency is a development, it was explained, of the senator's announced campaign slogan "to substitute party government for a one-man government and a return to constitutional form of government in this republic."

In Touch With Senate.

He has stated that the Vice President should be more than a "mere substitute in waiting." It is his apparent intention, if elected President to make the Vice President the official medium of communications between the administration and the Republican senators, thereby establishing and helping to maintain cordial and working relations between the executives and the legislative branches of the government.

Senator Harding has high admiration of Governor Coolidge as a capable and patriotic American, a fearless and skilled executive and a loyal Republican. He believes that, with Governor Coolidge participating in the cabinet conferences, the administration can get an accurate report on the Senate, while the Senate will be kept informed on administration policies and the reasons leading to the shaping of such policies.

With the Vice President acting in this capacity, the senator expects to bring about complete party teamwork and to avoid a split between the administration and the party representatives in Congress. Working in harmony, Senator Harding believes that the executive and Congress can accomplish much for the welfare of the country in the way of after-war reconstruction legislation.

He has personal knowledge of, and experience with, the difficulties that faced President Wilson because of conflicts with Democratic leaders of the Senate and House.

Senator Harding declined today an invitation to be the dinner guest in Chicago next Monday night of the 500 traveling salesman of Marshall Field & Co. He will send a message of felicitations and greetings. The organization, thru George Wilson and William F. Hyppes, assured him of its united support in the campaign.

The Richland County Harding and Coolidge Club, with headquarters in Mansfield, O., will be received by Senator Harding, July 31. This will mark

formally, the opening of the "front porch" campaign and this organization has been pressing for the honor of being the first to be received. Saturday afternoon was selected so that shopmen might take advantage of their half holiday. The club will come to Marion on a special train. Many Richland County farmers will make the pilgrimage by automobile.

Wood Has Pleasant Task.

"I had a very pleasant talk with Senator Harding," said General Wood later to the newspaper correspondents. "I have no special statement to make tonight, but will give out one in Chicago Monday morning, after I have had time to frame it. I found the Senator very generally sympathetic with the policies in which I am interested. I have already come out with my adherence to the party and the nominee. As a Republican, I naturally will support the party and nominee."

Accompanied by Senator Harding, the general later visited the Marion Club, where he shook hands with a large number of persons who assembled there to meet him. The general returned to Chicago at 11:15 p. m. after a visit here of three hours.

Wood Visits Harding.

Marion, O., July 10.—Interest in the activities of Senator Harding, the Republican presidential nominee, centered in his conference tonight with Maj. Gen. Leonard Wood, contestant for the nomination who called to assure the Senator personally of his support so far as compatible with his duties as an army officer. The conference came at the end of a quiet day, spent by the nominee in working on his speech of acceptance and receiving callers.

General Wood did not reach Marion until nearly 8 p. m., and went directly to the Harding home, where he had dinner with the Senator and Mrs. Harding.

RECENT CHAUTAUQUA WAS UNSUCCESSFUL

The three days engagement of the Radcliffe Chautauqua, which closed here Saturday night, was rather disappointing to the citizens who guaranteed the funds sufficient to bring the concern here, and to those who attended as well. The receipts fell considerably below the amount necessary to secure the attraction and therefore necessitated the putting up of private funds to make up the deficit.

Some numbers on the program were excellent and well-rendered while others were pronounced very common and in so far as high class entertainment was concerned, were rather disappointing. Had the program promised and expected been given in a highly creditable manner in all probability the tent could not have contained the audience both Saturday afternoon and night instead only a small number attended.

When contracts for this character of entertainments are made, the Chautauqua people should be obligated to do something other than to send out individuals or companies to merely fill the holes in the program. If they wish to succeed and make return engagements they should endeavor to exceed their promises or at least measure up to expectations.

Two disappointments successively, in the character of entertainments given and also from a financial standpoint as well, will in all probability cause the business men of this town to play shy of the Radcliffe or any other Chautauqua during the coming year, and perhaps for several to come.

We would not do anyone an injustice, knowingly, but in thus expressing our honest opinion, we feel that we but voice the sentiment of an overwhelming majority of those who attended one or more meetings held here by the Radcliffe people and sincerely regret that a true report could not be a booster article instead of otherwise.

BUNGLING BURLESON.

Postmaster General Burleson has ruled that all employees in the postal department on reaching the retirement age of sixty-five years shall be automatically retired or separated from the service. Congress wrote into the new law that if such men desire to remain in service and their chiefs certify that they are doing efficient work, they may be retained on the pay roll. Burleson would precipitately fire everyone who has reached the age of sixty-five.

KAISER'S WEALTH CAUSING WORRY

Attempt To Divert Funds To Benefit Of War Orphans.

Berlin, June 8.—A great topic of discussion in parliamentary circles is the fate of the ex-Kaiser's millions. The Nationalists assert that it would indicate fear if the money were not handed over. The Socialists, on the other hand, repeatedly suggest that the greater part of the ex-Emperor's fortune should go to the widows and orphans of the war.

"Let the Hohenzollern family earn their living by the sweat of their brow," they say. "Every Hohenzollern is taught a trade."

A new feature is added to the dispute every day. Palace, plate, linen, jewelry and forty castles in the country are involved. At a recent sale property belonging to the ex-Kaiser realized more than \$10,000,000, and it is estimated that the remaining property of the Hohenzollerns in Berlin alone amounts to 200,000,000 marks (nominally \$50,000,000).

"This belongs to me," says the ex-Kaiser, in effect. "It belongs to the state," thunder the Socialists; and as soon as the ownership of, say, the palace linen is settled, another little matter crops up involved about \$100,000 worth of china.

When the ex-Kaiser's great-grandfather Frederick William III, died he left not more than \$200,000 a year in trust for the Hohenzollerns. During his lifetime he managed to rub along on \$1,500,000 a year, which is considerably less than half the sum his great-grandson received as king of Prussia.

The ex-Kaiser was notoriously extravagant. He began on a "salary" of \$4,000,000, in addition to which there was the \$2,000,000 a year from the great-grandfather's trust fund. His private income amounted to \$1,000,000, and shortly before the war the Reichstag favored him with a further sum which brought his yearly income well above a million sterling.

When the ex-Kaiser's lawyers first submitted their client's claims to the Reichstag the demands made were partly recognized. Since then the Socialist party has accused the ex-Kaiser of wishing to embarrass the state, and has raised the question of the origin of the millions of marks which the fallen ruler claims to be his.

A bill is shortly to be brought up in the Reichstag, but, in face of the Socialist party's question: "Where do the ex-Kaiser's millions come from?" its fate is in the balance.

VILLA TO RESUME REIGN OF TERROR

El Paso, Tex., July 10.—Francisco Villa, the Mexican bandit and revolutionist, sent word to the border today by one of his agents that rejection of his terms by the new Government would cause him to start a new reign of terror in Northern Mexico. Villa, it was said, has discontinued his operations until July 15 as the result of an armistice arranged in negotiations last week.

The agent said Villa had received renewed pledges of support from other revolutionists, who were against the Carranza Government and now are either actively at war or planning campaigns against the De la Huerta regime. All of these leaders were declared opposed to the 1917 Constitution, and will seek to have a Government set up in Mexico that will restore the Constitution of 1857.

An American returning to the border from a trip through Mexico said today there is a wide unrecurrent of dissatisfaction in Mexico, and that former Mexican Federal officers ousted by the new regime are creating dissension.

Southern Mexico leaders, he said, are particularly bitter because they declare most of the Government agencies have been filled by Sonoran Mexico City itself, he said, is filled with 12,000 soldiers, principally Yaqui and Mayo Indians.

They were taken there by Gen. P. Elias Calles, Minister of War and Marine, and these have supplanted all other soldiers in the capital whether former Federal or troops of other leaders in the recent revolution.

5,000 JAILED IN SLACKER DRIVE

Fourth Of Evaders Joined Army It Is Learned

Washington, July 10.—Five thousand draft-evaders have been convicted in Federal Courts and given sentences of from thirty days to one year in prison, according to reports compiled today at the Department of Justice. Thirty thousand cases remain to be investigated, but officials said today that rapid progress was being made in rounding up the delinquents.

The figures, it was explained, do not include cases of persons who were called in the draft and deserted, as such cases are handled by the military authorities.

So far approximately 275,000 cases of delinquents—men who succeeded in avoiding actual entrance into the service—have been investigated by the department out of a total of 338,714 reported. The result of the investigation show about 10,000 cases of failure to register and an equal number of questionnaires.

About 25 per cent of the men listed as delinquents were found by the department's agents to have enlisted in the American or Allied armies without the knowledge of their local boards.

About 40 per cent of the draft dodgers are accounted for by the department on the score of the floating population with no permanent homes and some 20 per cent are considered as nonwillful delinquents who failed to perform their duty through ignorance.

The latter is made up of cripples and willful delinquents who intentionally avoided service.

Careful attention is being given false questionnaire returns, officials declared, as well as cases where wealthy men bought farms before the call came and obtained deferred classification on the ground of necessary industry.

FINANCIAL HISTORY IS BEING REPEATED

(By Edward N. Dingley.)

It is singular, but historically true, that the nation's interests always have been bad at the close of a Democratic administration.

It was so when Buchanan went out of office in 1861.

The treasury was empty, discontent was widespread and national dissolution was near.

The Republican party saved the republic, restored the national credit and set the country on its feet economically, financially and industrially.

The same thing was repeated in 1889, when Cleveland retired after his first term.

The industrial and commercial confidence, long back of the nation, disappeared. Business was alarmed over Democratic "tariff reform."

Imports increased, domestic industries lagged, men and women were out of employment. The public debt increased. The federal treasury was in a bad way.

Confidence was restored by the election of a Republican President in 1888.

Again the pendulum swung back to Democracy, and in 1892 a Democratic President was elected, with the usual result. After four more years of Democratic trial, the country was in a bad way financially and industrially.

In the year 1895-96, the federal treasury was practically empty, and the government—a Democratic administration—was obliged to issue bonds in a time of peace to obtain sufficient funds to pay the ordinary expenses of the government.

Domestic industries lagged, soup houses prevailed, men and women were thrown out of employment. There was an industrial and economic panic. Why? Because the business interests—which includes the small as well as the large interests, the manufacturer, the wholesaler and the retailer—had no confidence in the Democratic administration.

The nation was literally rescued from bankruptcy by the election of a Republican President and a Re-

publican Congress.

After 1879, sufficient funds flowed into the public treasury to meet expenses. The debt increased by the Democrats was decreased by the Republicans, and would have been wiped out in two or three years had it not been for the war with Spain in 1898.

Again in 1920, the nation is in a bad way financially, economically and industrially. Never before was there so much discontent as today. A note of warning has been sounded. The times are perilous. The cause can be traced back to Democratic administrations, Democratic methods of government, Democratic waste and extravagance.

What is the remedy? A complete restoration of confidence by a restoration of the Republicans to power in both the executive and legislative branches of the government.

The Democratic administration, by its policy, has encouraged disturbing and disintegrating elements. It has let loose dangerous forces. It has baited the political hook with poisonous doctrines and caught only international monsters.

Again the nation will be saved from its present peril by the election of a Republican President and a Republican Congress.

For a third time the credit and welfare of the republic will be restored by the Republican party.—Louisville Herald.

JUSTICE ASTRAY.

Hartford, and the Ohio Circuit Court, during the term just closed, has been the scene of the most unusual litigation ever enacted in this or any other civilized community. John Stites, a man of some means, approximately 60 years old, well beyond that period known as middle life, was tried upon a charge of incest, which in the category of crimes, by intelligent human beings is accounted one of the most heinous and unbelievable and the least to be condoned. The man's daughter, against whom the crime was said to have been committed, gave testimony positive that the charge was true and in addition to this daughter's positive statement another daughter swore that she had been an eye witness.

Had the trial jury who heard all the evidence and able pleas of the attorneys believed the statements, conviction would have undoubtedly followed. But instead the jury within less than five minutes after the case had been turned over to them, returned a verdict of not guilty, and therefore, in effect said that they believed that the two daughters willfully gave utterance, under oath, to statements violently untruthful. No other view than the latter could have been held by the jury, (we are informed that only two members of the jury expressed any doubt whatever as to the innocence of the accused) and if the jury had the correct idea of the case and rightfully set the old man at liberty, with a clean bill of health, as it were, what then is the status of the case? We have the sorry spectacle of a man who has topped the peak in life, one who some years ago commenced the descent upon the other side, whose family for reasons known only to themselves, willfully and through perjury, are, or were, endeavoring to put him in the penitentiary on a trumped-up charge.

As above stated the crime with which this man Stites was charged is a most heinous and repulsive one, one for which the laws of our land fail to supply adequate punishment, in our opinion. Yet on the other hand the crime with which the man was charged pales into insignificance when compared with that of a willful and premeditated attempt to falsely accuse and fasten this sort of a charge upon one's father.

We are not prepared to, neither do we in anywise attempt to express an opinion as to the guilt or innocence of the man accused and acquitted, nor do we presume to say that the sworn statements of the daughters or others were made up of perjury and false testimony, which could have no meaning, other than, as some one said, a frame-up, and the jury if believing as they did, in the innocence of Stites believed in the frame-up theory.

It makes no difference as to which side of this particular case you look at, or from what angle you view it, the enormity of the crime of some one, or more than one, to go unpunished is appalling. Justice in this case has beyond doubt gone astray.

WOOD STRONG FOR SENATOR HARDING

Progressives And Real Progress To Play Big Part

Chicago, July 12.—Maj. Gen. Leonard Wood, in a statement today, declared that he heartily indorsed the nominees of the Republican party, "understanding that the progressive elements of the party are to be brought into the campaign and given full representation and participation."

"The party can win thru united effort and such clear and explicit declaration of program as will bring the large, independent vote to its active support," the statement said.

General Wood, who conferred with Senator Harding at Marion, O., last week, defined what he considered necessary points in a "progressive policy," and declared the party could not win by destructive criticism.

Policy Forward Looking.

"The party's policy must be forward looking and constructive," the statement said, "one which, while recognizing America's responsibilities as the leading nation of the world, will guarantee her freedom from foreign control and class domination; one which will safeguard our traditional policies at home and abroad; one which will complete the enfranchisement of women; which will stand against all forces and influences tending to break down morality, the physical well being or the solidarity of our people."

"It must be a policy which will strive for a speedy return to a peace basis, to a government under the constitution; for economy, efficiency, revision of war taxation; for a strong but conservative foreign policy, a policy which will protect American lives and rights abroad; for the building up and protection of our agriculture and industries; for industrial justice based upon the square, human handling of the issues between labor and capital, remembering that labor is neither a commodity nor a chattel."

Must Defend Nation.

"It must be for the improvement of public education; for a highly efficient army and navy, always ready—the product of a truly American policy of national defense; for the building up of a merchant marine and a sound foreign commercial policy; for the careful supervision of our immigration and the systematic Americanization of those who are accepted; for the strengthening of the sense of citizenship obligation at all times, and the adherence of these fundamental principles and policies on which the stability and permanency of our government depends."

"In short, a government of the people, under a clean-cut, progressive policy, meeting and dealing with the great issues of the present frankly and courageously with a view to solving rather than avoiding them."

GRAYSON COUNTY STILL RAIDED

Revenue officers Noah Reed and Owen Mitchell, of Brownsville, and County Sheriff Eugene McCabe raided a supposed moonshine still near Pearman, this county, on Nolin River, capturing about 350 gallons of mash, and nothing more. No moonshiners were arrested, and no sign of a still discovered. This is the first raid of this kind in Grayson, though several such have been made Edmonson in the last few weeks.—Leitchfield Gazette.

CANADIAN PROVINCE VOTES FOR "BONE DRY"

St. Johns, N. B., July 10.—The province of New Brunswick, in a referendum today, voted to empower the government to retain the present "bone dry" prohibition law passed during the war, and against introducing wine and beer licenses.

DIES GIVING BIRTH TO TWENTY-SECOND CHILD

Columbus, O., July 12.—The mother of twenty-two children, including six pairs of twins and one set of quadruplets, Mrs. Mary Durrington, 39, is dead at her home here following the birth of a still-born child yesterday. Only five of her twenty-two children survive.

FRIDAY.....JULY 16

REPUBLICAN TICKET.

For President—
WARREN G. HARDING.
For Vice President—
CALVIN COOLIDGE.

ANNOUNCEMENT

We are authorized to announce the
candidacy of Richard P. Ernst, of
Covington, for U. S. Senator, from
Kentucky, subject to the action of
the Republican party.

We are authorized to announce
Marshall Duncan, of Springfield, as
a candidate for the Republican nomi-
nation for Congress in this district.
Primary Election, August 7, 1920.

We are authorized to announce the
candidacy of W. P. Hays, of Nelson
County, for Congress from the Fourth
Congressional District, subject to the
action of the Republican party.

We are authorized to announce
the candidacy of John P. Haswell, Jr.,
of Breckenridge County, for Congress
from the Fourth Congressional Dis-
trict, subject to the action of the Re-
publican party.

It has been announced that Debs
will inaugurate a sort of front cell
speechmaking campaign. It's dollars
to doughnuts that the other can-
didates will not ask the Socialist
nominee for a division of time.

Villa occupied a prominent position
on page one, in most of the Sunday
papers. It looks as though the Mex-
ican bandit can't be kept off of the
boards for long at a time. We
thought that the Washington Admin-
istration was almost up to the point
of officially recognizing the present
regime in Mexico, and by the renewed
bandit uprising the broth was turned
into the fire. At least that may be
the result.

Senator Harding's announcement
that in case he is elected he plans to
take the Vice President into partner-
ship in the business of running the
government, will be hailed with much
satisfaction by the country at large.
While as a matter of course, the
chiefest of the duties and responsi-
bilities must fall upon the Chief Execu-
tive, there is no apparent sense in or
excuse for the Vice President being a
mere hump on the camel's back. To
get away from the mighty one-man
rule is a thing this Nation is hunger-
ing for.

In the face of a badly demoralized
tobacco market and corn bringing
\$1.00, and more per bushel, many
farmers gave more attention to the
weed crop than to the corn. And
now, according to the government
crop estimate and predictions of
those connected with the markets
the prices are most certain to go
still lower than at the close of the
season last spring. Lower tobacco
and higher sugar, flour, coal and
clothing are prospects not very in-
viting to the weed producer, for he is

powerless and at the mercy of every-
body else. He is in the middle of the
game, being played by both ends.

Coal is bringing the highest price
ever heard of. The earth is full of it.
Miners say they don't get enough
work, operators and dealers are talk-
ing famine in fuel. It looks like all
guns were trained on the man who
keeps the fire burning. Coal short-
age talk is nothing more or less than
price booster stuff, propaganda, put
out to scare those who must have
coal in order to sustain life. Those
who operate mines are, beyond doubt
entitled to a fair return on money
invested and for labor performed.
Any sum beyond that extorted from
the people is plunder, pure and sim-
ple. Methods preventing wholesale
pillage at the expense of the masses
in so great a necessity as coal ought
to be found in some manner, and
while we are unalterably opposed to
the principle of government owner-
ship or operation, it looks very much
like the Coal Barons were bidding
for and courting that very thing.

MISS MARKS GIVES RECEPTION FOR MRS. WOODWARD

Miss Lettie Marks entertained
Tuesday afternoon from five to six,
with a reception-tea in honor of Mrs.
Ernest Woodward, of Louisville. The
rooms were attractively decorated
with sweet peas, roses and ferns. The
refreshment table contained a cut
glass basket of pink sweet peas held
with pink tulle and was surrounded
by pink holly hocks. Mrs. Hender-
son Murphree, Miss Lettie Glenn and
Miss Mary Marks served tea and
sandwiches. Those who called were:
Mesdames J. C. Her, Louisville; A.
D. Kirk, E. G. Barrass, Iva Bean, A.
K. Anderson, Ernest Birkhead, H. E.
Mischke, C. O. Hunter, Rowan Hol-
brook, Lee Simmerman, John B. Wil-
son, James S. Glenn, Z. H. Shultz,
Lyman Barrett, John Taylor, Belle
Cooper, W. C. Blankenship, Will
Bean, Purd Casebier, Misses Mattie
Sandefur, Daisy Wedding and Flor-
ence Logan.

MRS. MYRTLE GRAHAM.

Mrs. Myrtle Graham, wife of H. C.
Graham, died at her home, near Nar-
rows, June 13, 1920. Funeral ser-
vices were conducted the following
day, at Narrows First Baptist church
by her former pastor, Rev. Birch
Shields, after which her remains
were taken to Smith Cemetery for
interment.

She was 29 years, 6 months of age,
was converted and joined the Baptist
Church at Narrows at the age of 14,
and was married to Herbert Graham,
May 21, 1911. To this union were
born two children, Norman, now 7
years of age and Frances, now 3
years of age.

Myrtle took to her bed in March
1919 with the dreadful disease, tuber-
culosis. By the instruction of her
physician she was taken to Hazel-
wood sanitarium at Louisville, June
18, 1919, but as no improvement was
made, at her request she was brought
home, Nov. 15, to spend her last days
with her family. She bore her suf-
fering patiently and her death was
peaceful, easy and triumphant.

By her sunny disposition, she won
a host of friends wherever she went,
and never can that smiling face and
loving voice be erased from our mem-
ory. The work those hands have
done; the words those lips have ut-
tered will stand as a monument to
her true womanly character. While
her voice is hushed here on earth
there is one more voice in heaven
singing praise with the angels.
May we all so live, that when
life's fitful fever is over, we will
meet with loved ones over in that
beautiful beyond, where we'll never
say "Good-bye."

TEACHER'S EXAMINATION

Supt. Howard has received notice
from State Superintendent Colvin that
a special examination for teachers
will be held in Hartford, August 6
and 7. This examination is for the
purpose of giving those who, for
any reason failed to take either of
the former examinations or those
who failed, an opportunity to qualify.
Special instructions are given in
the State Superintendent's communi-
cation against employing teachers
who are not legally qualified, as no
payment of public funds can be paid
to teachers under such condition.

MR. A. W. LOGAN TO UNDERGO OPERATION

Mr. A. W. Logan, who went to
Lexington some time ago for medical
treatment was recently conveyed to
Rochester, Minn. preparatory to en-
tering the Mayo Bros., Sanitarium,
for an operation. Mr. Logan has
been in Rochester about ten days but
owing to the crowded condition it
has, so far, been impossible to gain at-
tendance to the hospital. Mr. Logan
has been doing fairly well, though
his physicians think an operation
necessary, or at least advisable.

HUB CLOTHING CO.

OF PUBLIC INTEREST.

Mr. D. E. Ward, County Tax Com-
missioner, Hartford, Ky.

You will remember that at the
Annual Conference of County Tax
Commissioners you were notified that
you would be expected to assess all
intangible personal property, live
stock, agricultural implements, ag-
ricultural products, manufacturing
machinery and raw material actually
on hand at the plant at 100 per cent
of their value, for the reason that it

bears a less rate of taxation than that
of real estate or other tangible per-
sonal property. Farm lands, mineral
rights, leases, town lots, and all other
tangible personal property not
mentioned above should be assessed
at 90 per cent of its actual value.
Actual value means what it would
bring at a fair voluntary sale as of
July 1, 1920.

We know that if you adopt this
rule you will very materially in-
crease the assessment of your coun-
ty. It is the desire and intention of
the State Tax Commission to finally
get the assessment of property up to
100 per cent of its value, thereby en-
abling the Legislature to decrease the
State rate of 40 cents. We hope that
you will make such an assessment of
your county this year that it will not
be necessary for the State Tax Com-
mission to require the County Board
of Supervisors to finish your job.
We believe the taxpayers will not be
dissatisfied with an increased as-
sessment when you have convinced
them that you are applying the same
rule to each and every taxpayer in
your county.

We have just been advised by the
Attorney General that machinery
used in crushing rock for ballast or
grinding limestone to be used as a
fertilizer and machinery used in the
making of brick, should be assessed
as manufacturing machinery. Mine
machines and machinery used in con-
nection with the operation of mines
is not considered manufacturing ma-
chinery and should not be so assessed.

Yours Very truly,
STATE TAX COMMISSION,
J. A. SCOTT, Chairman.

Wirthmor Silk Blouses

Savingly Priced at \$6.75

The name "Wirthmor" on a Blouse is an assur-
ance of many things; unfailingly it is an assurance
of decidedly superior value.

There are several delightfully pretty styles in the
new lot just received made of Georgette, Crepe de
Chine and Pongee.

All are cut on lines that insure perfect fit.

We are especially glad to offer these blouses at
this time when everyone is interested in keeping
down living costs.

The supply is limited and no
more of the same models can be
had. Hence we urge an early se-
lection.

CHIROPRACTIC!

Vital force is nature's antidote to cure the evils
germs do, and prevent harm from their presence.
Were this not true, the germs taken into the body
through air, food and drink, would soon devastate
the whole race.

Get the spine right as a matter of automatic pro-
tection. The death rate goes up in degree as peo-
ple are unable to resist disease when it crosses their
paths.

SIX REFUGEES IN BARN
AS LIGHTENING STRIKES

During the electrical storm which occurred Wednesday afternoon, lightning struck a stock barn on the premises of Mr. C. S. Rowe, near Centertown, in which several persons traveling along the adjacent highway, had taken refuge. Mr. Arvin Leisure and son, Mrs. Bob Maddox, Mrs. Percy Brown, Mr. and Mrs. Henry Taylor being some, or perhaps all, who were in the barn at the time the bolt came in contact with it. A horse that Mr. Leisure was holding was killed and Mr. Leisure was knocked down and for a time was thought to be seriously injured, but he was doing nicely yesterday afternoon and has, or will soon be entirely recovered from the shock. None of the other occupants of the building were injured, other than to suffer momentary shock.

The barn was a total loss to Mr. Rowe, together with several tons of hay, some wheat, one mule and other items, as the resulting fire destroyed the barn and all contents.

HELFRICH BISHOP HURT

Helfrich Bishop, a young man who works in the mine of the Rockport Coal Company at Centertown, was injured Wednesday by falling slate. While the injury is not in any sense considered serious, yet Mr. Bishop will be laid-up for some time, he having sustained three broken ribs and additional bruises and cuts.

"SOME OATS"

George Jones of the Washington Country, brought a bundle of oats to this office Wednesday, that was grown on his farm, measuring five feet and eleven inches in height. Mr. Jones stated that a large portion of the crop was so heavy and badly down that it was impossible to harvest it. The oats have exceedingly long and well-filled heads and the yield in grain would almost equal the enormous growth of straw.

BEAVER DAM SECOND TEAM DEFEATS LOCALS

Beaver Dam second team defeated the Hartford second team Saturday by the score of 14 to 8. The game was a long drawn out affair with numerous miscues and many runs. Both teams were about evenly matched but the Beaver Dam boys had the edge on the local boys when it came to hitting. Both teams have good material with which to build up good ball clubs and plenty of practice will make the next game interesting.

To Buy at Loom-End Prices You Must Pay Cash for Your Purchases

Store Will Be Closed Thursday, July 15th, to Mark Down the Stock for the Big Sale

There has been much agitation and speculation in the last sixty days on the high cost of living. A great many stores in the larger towns have put on discount sales, reducing the prices twenty per cent on their entire stock, claiming they are performing a patriotic duty by reducing the high cost of living. The real reason in most cases was, they marked their merchandise too high in the first place, and even after the 20 per cent reduction in price they were still getting as much or more for their merchandise than merchants generally all over the country. In view of this patriotic camouflage, we wish to call your attention again to our policy:

We Have Always Set the Pace In Price

We have always depended on small profits and big volume of business to make money. Any merchant who sells merchandise grade for grade cheaper than we do will soon be looking for a new job. With these facts before you, we want to venture the assertion that the high cost of living can't be materially reduced until the demand along every line is less than the supply. The beginning is not even in sight. Don't be deceived, supply your needs. With liberal reductions in prices you can always buy ahead and save money.

Our Semi-Annual Bargain Feast Will Be Spread On July 16th.

Hundreds are looking forward now, waiting anxiously for the money-saving opportunities it affords. According to our usual custom, we have ransacked every department in our store for odds, ends and broken lots. Every short length that we can give you at less than manufacturer's cost. Besides the accumulation from our regular stock, we have assembled thousands of yards of Loom-End Calicoes, Percals, Gingham, Shirtings, Silks, Scrims, Pajama Checks, Organdies, Voils, White Goods, Etc., which we offer you at less than manufacturer's cost today, and considering the present price levels and the price of merchandise for fall, this sale will be one of the biggest money-saving sales we have ever had.

Remember the Date. Be on Hand the First Day,

and come back every day until you are sure you have seen everything we have on the bargain tables. May be you will buy something, and may be you won't, but come and see what's doing.

Ready-To-Wear Department

We prefer not to carry over a Suit, Coat or Dress in this department, and we are pricing them so low that we feel sure of making a clean sweep. They are made in top-notch, new styles, most of them practical for any season of the year.

HARDING PLEASED LEAGUE IS ISSUE

Wilson Forced Pet Policy On Nominees, Senator Says

Marion, O., July 13.—Senator Harding charged in a statement tonight that President Wilson had forced the Democratic presidential and vice presidential nominees to accept his views that the League of Nations should become the dominant campaign issue. The President's one concern, the senator said, is the "vindication of his foreign policy," and he insisted upon "his issue regardless of costs or consequences."

"The Republican party and candidates gladly accept the challenge," the statement said. "We are more than willing to make the election a national referendum on the question whether we shall have four years more of the Democratic readiness to surrender this republic."

Roosevelt Defines Issue.

The statement resulted from the announcement of Franklin D. Roosevelt, the vice presidential candidate, following his conference yesterday with Governor Cox that his campaign would be made chiefly on the league issue.

The statement follows:

"Columbus dispatches describing the conference between the Democratic nominees for President and Vice President on Monday, say that 'Governor Cox left it to the vice presidential nominee to make known the conclusions reached.' And, thus authorized to speak for both of them, the vice presidential nominee 'stated that he considered the League of Nations one of the dominant issues of the campaign, not only in the East but in the West. He expected to make his campaign chiefly on the League of Nations issue.'"

"So we have the complete proof that President Wilson has won, and forced acceptance of his paramount issue. The party machinery has been taken over by the Tammanies of New York, New Jersey and Indiana, but President Wilson has forced his issue on them. He has but one concern, and that is the vindication of his foreign policy, first by his party, later by the country."

America Party To Wars.

"The Democratic campaign is going to harness the party absolutely to the Administration policy of ratification without protection to American interests. Should the Democrats win, the League would be ratified, and America would become at once a party to the twenty-odd wars now going on in the world. European leaders have repeatedly explained that it is impossible for the League of Nations to function effectively so long as the United States has not ratified. The obvious implication is that when the United States ratifies, the League will proceed to settle up these matters; to enforce its authority in the conflict between Poland and Russia; to settle the Adriatic troubles, compel peace between Turkey and Greece, assume responsibility for participation of the whole near east and middle east."

"All this can not be done unless the league employs force. America would have to contribute its army and navy. President Wilson has urged acceptance of a mandate for Armenia, which the Harbord Mission found would require us to employ a great army and pour out money by hundreds of millions. Congress overwhelmingly refused, and the country has sustained it so insistently that even the San Francisco convention did not dare endorse the mandate. Yet that mandate would hardly be more than an intimation of the many world-fung conflicts into which America would be projected by ratification of the league without rigidly safeguarding reservations."

Senators Repudiated.

"The President demands a campaign on this issue; the Democratic platform makes the issue paramount, and finally, the Democratic candidates unqualifiedly acquiesce. The score and more of Democratic senators who voted for the Lodge reservations are repudiated, the real opinion of the American nation is flouted, because the President insists upon his issue regardless of costs or consequences. The Republican party and candidates gladly accept the challenge. We are more than willing to make the election a national referendum on the question whether we shall have four years more of Democratic readiness to surrender this republic."

HENRY FORD WILLING
TO HEAD THIRD PARTY

Chicago, July 8.—Henry Ford will

accept the nomination for the presidency at the hands of the third party, if tendered to him, it is announced here tonight by Charles F. Hoffman, personal friend of Mr. Ford, who returned from Dearborn, Mich., today, where he had a conference with the automobile manufacturer. Mr. Hoffman is a member of the executive committee of the "committee of 48" which has called a third party convention in Chicago for Saturday.

Plans of a group of liberal and radical organizations for one united third party with candidates for president and vice president in the field received a setback today when single tax party members announced they would not support Senator Robert M. LaFollette, who is expected to be the choice of the other group.

The single taxers who arrived today to prepare for their convention, which opens Saturday, declared they would bolt and nominate a separate ticket if the majority chose LaFollette. While the single taxers were threatening to present their own ticket, Amos Pinchot and George L. Record of the committee of 48 were in Madison, Wis., today conferring with LaFollette, who has received a majority of a mail straw vote of the party.

Summer Complaint in Children

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell, of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."

WIN CLOSE GAME.

Hartford defeated Beaver Dam Sunday in a loosely played game. Both of Beaver Dam's pitchers were off their feed issuing eight passes, hitting three batsmen and allowing twelve hits.

Coakley Taylor, Williams and Rickard did the hard and opportune hitting for the home team. Taylor hit a home run in the third with the bases filled and Rickard later in the same inning doubled with two men on the sacks. Williams hit a homer in the fourth with Duke on.

Beaver Dam gathered eleven hits off Rick's delivery but they failed with the exception of the eighth to get them when men were on the sacks. Morris was Beaver Dam's hard hitter, getting three singles and a homer out of four times at bat.

Hartford journeys to Beaver Dam for the return game Saturday and to Calhoun Sunday.

Score by innings:

	R	H	E
B'Dam	0	1	0
H'ford	0	6	0

2-11-2 9-12-6

0 6 0 2 0 1 0 0 x 9-12-6

Cut This Out And Take It With You

A man often forgets the exact name of the article he wishes to purchase, and as a last resort takes something else instead. That is always disappointing and unsatisfactory. The safe way is to cut this out and take it with you so as to make sure of getting Chamberlain's Tablets. You will find nothing quite so satisfactory for constipation and indigestion.

FORDSVILLE

Mrs. J. J. Telford, who has been very ill for the past month, is slowly improving.

Mrs. Wickliff DeHaven and little daughter, Katherine, spent Thursday of last week, in Louisville, shopping.

Mr. Cody Gaines, of Owensboro, is spending his vacation here, with his parents, Mr. and Mrs. W. S. Gaines.

Mrs. Cora Renfrow, of Dundee, who has been visiting Miss Abby Whittinghill of this place, returned to her home the latter part of last week.

Mrs. Frank Moseley, of Kansas City, Mo., is here to spend a month with her sister, Mrs. J. Q. Smith and Mrs. L. Marlow and brother, T. S. Ford.

Prof. R. I. Whittinghill and family, of Morganfield, are spending their summer vacation in the country with his mother, Mrs. Alice Whittinghill.

The board of trustees has employed Prof. Belt, of Greenville, as Principal of the High School here.

Mr. Stanley Murphy, who is attending school in Bowling Green, visited his family of this place, for a few days last week.

Mr. and Mrs. Esley Kirk, of Owensboro, are here, visiting Mrs. Kirk's parents, Mr. and Mrs. John H. Smith.

Summer Complaint Quickly Relieved.

"About two years ago when suffering from a severe attack of summer complaint, I took Chamberlain's Colic and Diarrhoea Remedy and it relieved me almost instantly," writes Mrs. Henry Jewett, Clark Mills, N. Y. This is an excellent remedy for colic and diarrhoea and should be kept at hand by every family.

EDITORIAL COMMENT

"It is when he comes to deal with the league of nations as the ideal settlement of the war that Mr. Cummings makes out a poor case, both for Mr. Wilson and the league. The party chairman should have delegated this task to some one better qualified to perform it, for it is a most difficult task. Mr. Cummings was looking down upon an audience composed in part of Democratic senators who had spent months of anxious study in the endeavor to reconcile their loyalty to their party leader with their sense of patriotic duty. These senators had gone far deeper into the questions raised by the league covenant than Mr. Cummings could be expected to go, and 21 of them had voted for reservations which President Wilson described as 'nullifying.' The senators are strong party men, well knowing the advantage of unity in party policies and actions. The political lives of many of them depend largely upon the degree of their support of President Wilson. It had been said that the Republicans had made opposition to the league a partisan matter. This, if true, would have gone far to justify the Democratic senators in supporting the league, even if they privately disapproved of it. Therefore the action of these Democratic senators in voting against President Wilson's version of the covenant must have been based upon the most compelling reasons."

"Imagine, then, the feelings of these thorough students of the covenant to hear Mr. Cummings describe it as 'the Monroe doctrine of the world!' It would be difficult to utter a phrase more inaccurate and misleading than that. President Wilson could not have read Mr. Cummings' speech very attentively, or he would have stricken out that unfortunate phrase. The covenant is not only not the Monroe doctrine of the world, but it contains an article which purports to exempt the Monroe doctrine from its jurisdiction. Democratic senators to the number of seventeen were not satisfied with this ambiguous exemption and voted for a reservation retaining in the United States full liberty of action in construing and applying the Monroe doctrine. There was no anti-Democratic partisanship in their action, even if Republican senators were inspired solely by partisanship."

"Mr. Cummings attempted to explain away the inequality of voting power between the British empire and the U. S. It was an unfortunate repetition of arguments which were long ago disposed of in the Senate, and the Democratic senators who voted in favor of the equal voting power of the United States must have been made very uncomfortable as they listened to Mr. Cummings. Are these senators to be defeated for the votes they cast? If so, the Republican party will fasten its grip upon the Senate. In that case, how will the Democratic party be benefited? How will the cause of the league covenant be advanced?"

"The simple, impartial truth is that the Democratic party and the Democratic nominee are placed in an extremely awkward predicament by the insistence of Mr. Wilson upon acceptance of the treaty as it was framed at Paris. The party is split by this uncompromising stand. Democratic senators who stood by President Wilson through thick and thin on all other questions were unable to support him in this demand. They did everything possible to dissuade him from taking a stand which could mean nothing else than disaster from a party viewpoint. Finally, unable to find a compromise, they cast their votes for reservations which they deemed essential to the security and welfare of the United States."

"These senators are now compelled to defend the position they assumed. They cannot evade the responsibility for the votes they cast, and they have already proved that they are not afraid to face the consequences. In every State represented by these senators there is to be a fight against the covenant as written at Paris. Every one of these Democratic senators has a strong following in his own State. In the heat and bitterness of the campaign, in which the political lives of all these senators are at stake it is inevitable that Democrats should quarrel over this distracting and disruptive issue. The candidate will be placed in a most embarrassing position in many States.—Washington Post."

Millions for a New Stomach

One of the greatest American millionaires said to his physician, "A million dollars, Doctor, spot cash and no grumbling, for a new stomach," and then the sick man groaned and turned away. All his wealth could not make him happy or contented, for happiness largely depends upon digestion. Without health where does happiness come in? After all the stomach plays a great part in everyday life. Without a healthy stomach and good digestion our blood is thin, watery and poor, our heart action is weak, our liver does not do its duty, and man is miserable and unhappy. Prevent disease by putting the house in order and strengthening the system against the germs of disease.

Dr. Pierce, of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., years ago understood diseases and their prevention, and he discovered certain roots and herbs which were nature's remedies, and succeeded in putting them up in a form that could be easily procured at the drug store (liquid or tablets). This he called Dr. Pierce's Golden Medical Discovery. This Discovery gives no false stimulation because it contains no alcohol or any narcotic. It helps digestion and the assimilation of such elements in the food as are required for the blood. It gives to the blood the food elements the tissues require. For over fifty years it has enjoyed the confidence of the American public. Try it now!

WIFE IS LIKE A NEW PERSON NOW

Kentucky Farmer Says Nothing Helped Her Until She Took Tanlac—Suffered Twenty Years.

Remarkable indeed was the statement made by W. T. Walker, a prominent farmer, living at Shepherdsville, Ky., R. F. D., No. 2, while in Louisville a few days ago.

Mr. Walker declared that three bottles of Tanlac has done his wife more good than all the other medicines she has taken in twenty years put together.

"For twenty years," said Mr. Walker, "my wife had been unable to eat anything without suffering terribly with indigestion. She had such violent cramping pains in her stomach at times that she could not straighten up; she was constipated all the time and often got so dizzy she would nearly fall. She had no strength and her nerves were so shattered that she could hardly sleep at all."

"Nothing ever helped her until she got Tanlac and that's saying a good deal, for she has tried everything Tanlac helped her right from the start, and while she has just finished her third bottle she is already like a different person. Her stomach is in such fine condition now she can even eat pork or anything else and never has a pain or an uncomfortable feeling afterwards. She is no longer constipated and never has a dizzy spell, and her nerves have quieted down until she sleeps just like a child every night. Tanlac is bound to be a fine medicine to do what it has for my wife after she had suffered so long, and I will recommend it to anybody."

Tanlac is sold in Hartford by Dr. L. B. Bean, in Horse Branch by Olafton Drug Co., in Rockport by James Browning, in Cromwell by Wallace & Porter, in Beaver Dam by R. T. Taylor, Jr., and in McHenry, by S. J. Tichenor.—Advertisement.

LARGEST U. S. DESTROYER IN SUCCESSFUL TRIALS

Rockland, Me., July 10.—The destroyer Brooks, the largest in the navy, and the first of twenty of a like type to reach the trial stage, successfully completed her standardization trials here.

The Brooks developed a maximum of horsepower of 31,551. The contract called for a requirement of 27,070 horsepower. The destroyer fell a little short of the expected speed of thirty-five knots. The average speed was 34.57 knots. The maximum speed reached was 34.85 knots.

The propeller average 479.89 turns a minute when the destroyer ran over a mile course twenty-eight times. The fuel test included a thirty-knot speed for four hours.

Loss of Appetite.

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before a second meal is taken. Then if you eat no more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it. m

HANLY SAYS "PROHI" TICKET OF NO USE

Law Makes Campaign Unnecessary He States, Visits Harding

Marion, O., July 9.—Senator Harding, the Republican candidate for President, was urged to take a firm stand in support of national prohibition in his speech of acceptance at a conference today with J. Frank Hanly, prohibition candidate for President in 1916. Later it was announced the senator had not committed himself regarding the matter, while Mr. Hanly said he hoped to be able to support him, but "would wait to see what the senator said in his speech."

Mr. Hanly denied he came to Marion to present the matter to the Republican nominee on behalf of prohibition advocates, but said the conference was sought at his own instance. As a prohibitionist, the former governor of Indiana said he would find it difficult to support Governor Cox, and announced he would not attend the National Prohibition Convention to be held in Lincoln, Neb., on July 21, adding he opposed placing a national Prohibitionist ticket in the field this fall.

"I came at the invitation of Senator Harding and in response to a request of my own," said Mr. Hanly. "I talked over the political situation in Indiana, gave him my view, as to the political situation throughout the country and in respect to the silence of the Democratic convention and the Republican platform on the prohibition question, the eighteenth amendment and the Volstead enforcement act."

Asked No Commitment.

"I simply presented my views renewed old acquaintance and had a pleasant hour. I did not ask the senator for any commitments on those questions and he made none. I don't think the Prohibition party ought to nominate a candidate."

"In view of the passage by Congress of the enforcement act and its

sustention by the United States Supreme Court," Mr. Hanly said, "the matter resolved itself into the election of a Congress favorable to the maintenance of the present law."

It must be largely brought out in the congressional district, he added. Mr. Hanly explained, however, this was his own personal view and not that of the Ohio senator who, he said, "made no comment." Mr. Hanly said he favored the prohibitionists placing their power next November where it would do the most good instead of nominating their own presidential candidate.

Regarding the conference Senator Harding said, "Mr. Hanly only presented his views as to the construing of the platform as others have done," adding "we are always glad to listen."

Plans for officially notifying Senator Harding of his nomination were announced today following a conference between the nominee and T. Coleman du Pont, of Delaware, chairman of the committee on arrangements for the Republican National Committee, and Harry Daugherty, of Columbus, the senator's manager in the pre-convention campaign.

The event will take place at 2 p. m. July 22 in Garfield Park, on the outskirts of Marion, with National Chairman Will H. Hays presiding. Following the singing of the "Star Spangled Banner" by the Republican Glee Club of Columbus, invocation will be pronounced by the Rev. T. H. McAfee, pastor of Trinity Baptist Church of Marion, which the senator attends. Senator Lodge, of Massachusetts, permanent chairman of the Chicago convention and chairman of the notification committee, will then deliver an address notifying the senator of his nomination to which the nominee will reply. Following the singing of "America," the ceremonies will close with a benediction by the Rev. Joseph M. Denning, of St. Mary's Church of Marion.

Announcement was also made that meetings of the Republican National Committee and the committee on arrangements are to be held in Columbus July 21, while at night Mr. Daugherty will entertain at dinner members of both committees, as well as the National Executive Committee, which is in charge of the campaign.

Aspen, Col., July 10.—Charles Warner, well-known mining man of this district, decided that sixty-five years was long enough to wander around on this mundane sphere. He walked to the grave of his wife and shot himself, leaving the following note:

"I have had my share of fun and worry and now I'm thru. I won't be satisfied until I join my wife. I have arranged for my burial, and have already ordered and paid for a tombstone. Sixty-five years is sufficiently long to live on this earth, so good-bye and good luck."

AUTOMOBILE LAWS YOU SHOULD KNOW

A Study Of Traffic Features May Prevent Trouble For Others And Prison For You.

We are rather inclined to believe that in the great majority of cases wherein regulations are ignored or violated it is done unthoughtfully or perhaps through ignorance of the real provisions of the law. Viewing the matter from that standpoint we have taken the trouble to publish practically all of those sections most generally affecting the operation of bicycles and automobiles upon the public highways of Kentucky, thinking that we might be able to prevent some serious or fatal accident or be instrumental in keeping some from being fined for ignorantly violating the law. We hear a lot of complaint concerning the reckless driving, failure to give signals at crossings and curves, and especially do we hear complaint concerning the operation of cars with their cut-outs wide open.

Equipment and Extras on Vehicles—When and how to use—Provisions for towing and trailers. (a) Every vehicle when upon a public highway shall be equipped so as to make a minimum of noise, smoke or other nuisance and so as to protect the rights of other traffic and to promote public safety, and in so doing shall follow the provisions hereafter set out: Provided that whenever lights are required they shall be displayed during the period from one-half hour after sunset to one-half hour before sunrise, and at such other times as atmospheric conditions render visibility as low as or lower than is ordinarily the case during said period, and that provisions as to distances mean under ordinary atmospheric conditions. (b) **Lights**—Automobiles and bicycles only are required to display lights as follows:

(1) At the rear one lighted lamp showing red visible from the rear 200 feet away.
(2) When in operation bicycles and two wheeled motorcycles shall have at least one and all other automobiles including three wheeled motor cycles shall have at least two lighted lamps in front showing white or tinted other than red, light, and of sufficient power to clearly reveal substantial objects at least 200 feet, except for bicycles 50 feet ahead: Provided any light projected ahead or sidewise shall be so arranged or deflected that no glaring rays from it or from any reflector shall be at any time more than 3½ feet above a level surface at a distance of 75 feet or more ahead of such vehicle, and provided further that in case of accident or emergency automobiles may display lanterns or other lights of smaller power, but if insufficient to clearly reveal substantial objects at least 75 feet ahead shall not proceed at a rate of speed in excess of 8 miles an hour; provided that no automobile shall be sold in this Commonwealth unless the light projected by the headlight meets the

foregoing requirements at the time of sale.

(6) **Mufflers**—Every automobile with an internal combustion, steam or air motor shall be equipped with a suitable and efficient muffler and it shall be unlawful while on a public highway to operate same with the muffler cut-out or removed. No cut-out shall be so arranged or connected as to permit the operation or control thereof by the driver of any automobile whilst in position for driving.

(d) **Brakes**—No owner shall knowingly operate or permit to be operated on a public highway an automobile upon which the brakes are defective or out of order.

(e) **Steering Device**—No owner shall knowingly operate or permit to be operated on a public highway an automobile upon which the steering device is defective or out of order.

(f) **Horns**—Every automobile and bicycle when in use on the public highway shall be equipped with a horn, bell or other device capable of making an abrupt sound sufficiently loud to be heard under all ordinary conditions of traffic, and every person operating an automobile or bicycle shall sound said horn or other device whenever necessary as a warning of the approach of such vehicle to pedestrians or other vehicles, but shall not sound said horn or sound device unnecessarily.

(g) **Who shall not operate**—(a) No person under 16 years of age shall operate any automobile upon a public highway unless accompanied by the owner or some person over 21 years of age authorized by the owner, and such owner or other person shall govern the operator and the movements of the automobile, and the operator shall be governed by such owner or other older person, provided that no person less than 14 years of age shall operate an automobile on a public highway at any time or under any conditions.

Rules For Operation of Vehicles—(a) The operator of any vehicle when upon a public highway shall operate such vehicle in a careful manner, with due regard for the safety and convenience of pedestrians and all other vehicles, or traffic upon the right side of such highway whenever possible and unless the left side of such highway is clear of all other traffic or obstructions and presents a clear vision for a distance of at least 150 feet ahead.

(b) **Right of Way in Passing**—Two vehicles passing or about to pass each other in opposite directions shall have the right of way, and no other vehicle to the rear of such two vehicles shall pass or attempt to pass such vehicles.

(c) **Right of Way at Intersections**—Except that where otherwise directed by a traffic officer the operator of a vehicle shall yield the right of way at the intersection of their paths to a vehicle approaching from the right, unless such vehicle approaching from the right, is further from the point of intersection of their paths than such first named vehicle. Provided that a vehicle being operated on any Inter-County Road, designated State highway, or boulevard or any street which may by ordinance be designated as being equal in importance to a boulevard, shall not be required to observe the foregoing regulations at points where any such above described highway intersects another highway of a lesser class.

(e) **Vehicles Meeting**—Vehicles proceeding from opposite directions shall pass each other to the right, each giving to the other one-half of the road as nearly as possible.

(f) **Overtaking Vehicles**—Vehicles overtaking another vehicle proceeding in the same direction shall pass to the left thereof, and shall not again drive to the right until reasonably clear of such vehicle, and the person operating or in charge of the overtaking vehicle shall sound horn, or other sound device before passing such vehicle: Provided that vehicles overtaking street cars may pass same either to the right or left, having due regard for other traffic.

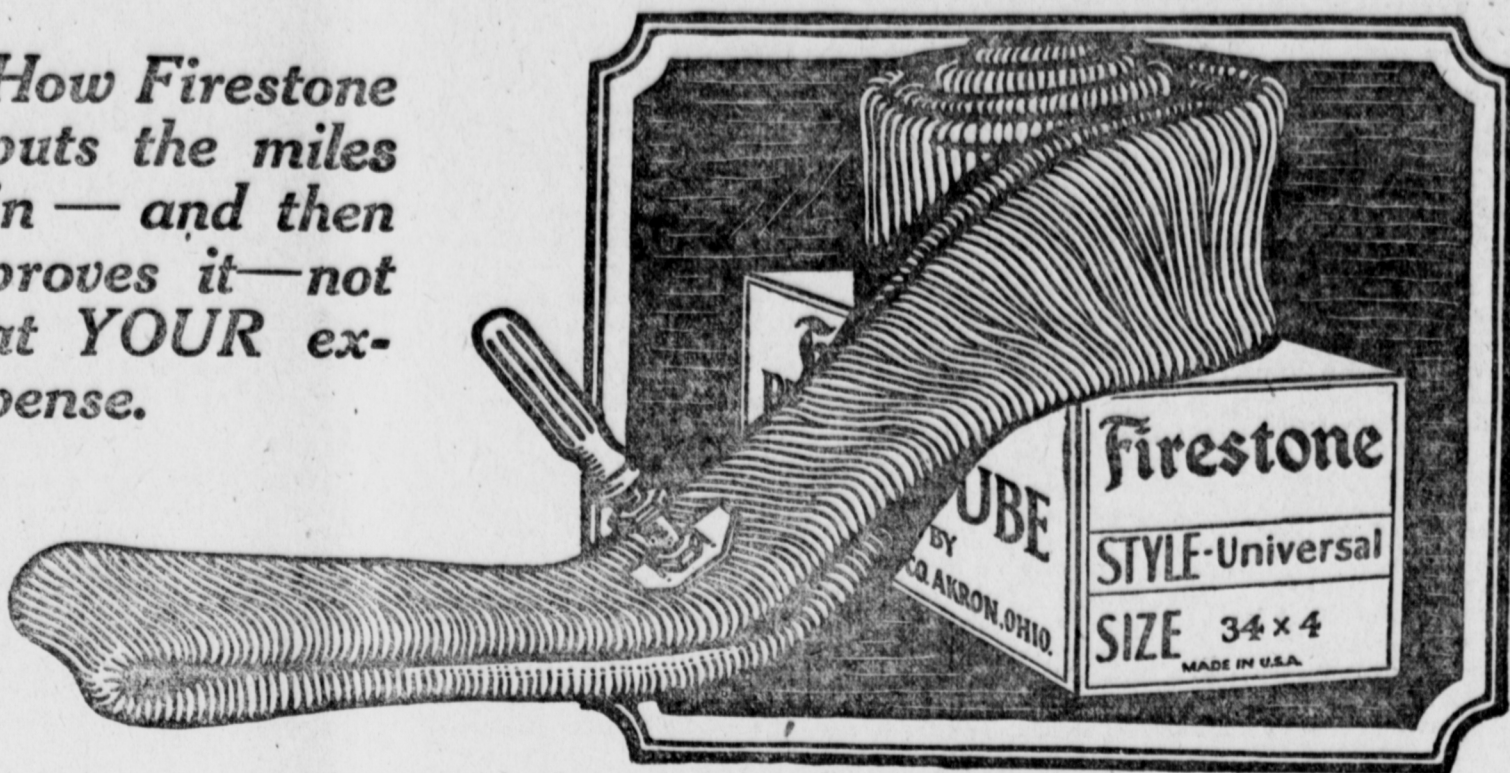

(g) **Duty of Operator of any Overtaken Vehicle**—It shall be the duty of the operator of a vehicle about to be overtaken and passed to give way to the right in favor of the overtaking vehicle upon suitable and audible signal being given by the overtaking vehicle, if such overtaking vehicle be an automobile or bicycle.

(h) **Turning at Intersections**—When turning to the right at an intersection of public highways, vehicles shall keep to the right of the center, and in turning to the left shall pass to the left of the center, keeping, however, as far to the right as is possible so to do and still pass to the left of said center. For the purpose of this sub-section the "center" shall be held to mean the meeting point of the medial lines of the two highways.

(i) **Precautions on Meeting Animals**—Every person operating a vehicle on a public highway and approaching any animal being ridden or driven shall exercise every reasonable precaution to prevent frightening any such animal and to insure

(k) **Slow Moving Vehicles**—The operator of any vehicle moving slowly upon any public highway shall keep such vehicle as closely as practicable to the right hand boundary of the highway, allowing more swiftly moving vehicles reasonably free passage to the left.

(m) **Approaching Curves**—Every operator of an automobile or bicycle when approaching a curve or an obstruction to the view on a public highway which prevents a clear view for a distance ahead of 150 feet, shall hold said automobile or bicycle under control and shall give warning by horn or other sound device of his approach.

(p) **Signals**—Every person operating a vehicle on any public highway before turning, stopping, or changing the course of such vehicle and before turning, such vehicle when starting the same, shall see first that there is sufficient space for such change or turn to be made in safety, and if it appears that the movement or operation of another or other vehicles may be reasonably affected by such change shall give plainly visible signals to the operator of such vehicle of his intention to change, turn or stop by the use of his hand and arm or of an electrical mechanical device approved by the commission, and shall use the following positions of the hand and arm in announcing his intentions:

(1) Intention to turn such vehicle toward the right or toward the left shall be indicated by extending the hand and arm horizontally from the side opposite the direction toward which the turn is to be made, or by extending the hand and arm upwardly at an angle of 45 degrees or greater from the horizontal from the side opposite the direction toward which the turn is to be made.
(2) Intention to stop a vehicle or to abruptly or suddenly check its

speed shall be indicated by extending the hand and arm out from and beyond either side of the vehicle in a downward direction at an angle of 45 degrees or greater from the horizontal.

(q) **Speed**—No operator of a vehicle on a public highway shall drive at a greater speed than is reasonable and proper, having regard for the traffic and the use of the highway. Provided that:

(1) That where a highway passes through the closely built-up business portions of any city or town, if the rate of speed of passenger automobiles thereon exceed 15 miles an hour it shall be prima facie evidence, of unreasonable and improper driving.

(2) Where a highway passes through the residence portion of any city or town, if the rate of speed of passenger automobiles exceed thereon 20 miles an hour it shall be prima facie evidence of unreasonable and improper driving.

(3) Where a highway is outside of the closely built-up business portion, or the residence portion of any city or town, if the rate of speed of passenger automobiles thereon exceed 30 miles an hour, it shall be prima facie evidence of unreasonable and improper driving.

* The penalty for violation of any of the foregoing sections ranges from \$10.00 to \$2,000.00, or by imprisonment in the County Jail for not exceeding one year, or by both such fine and imprisonment within or to the maximum of both.

DRAINAGE TAX NOTICE

George A. Barnes, et al., Drainage District.

At a meeting of the Board of Drainage Commissioners of Ohio County, Kentucky, held at the Court House in Hartford, Ky., on Monday, July 5, 1920, at 2 o'clock P. M., with all members present, it was moved, seconded and unanimously carried that

the action of this Board, taken at a meeting on June 7, 1920, whereby a tax or assessment of Ten Per Cent, was levied in the GEORGE A. BARNES, ET AL., DRAINAGE DISTRICT, be rescinded and declared null and void, and in lieu thereof it was ordered that an assessment or tax of Five (5) Per Centum based upon the original assessment for construction of said ditch, be made and levied against the lands and landowners located within said GEORGE A. BARNES, ET AL., DRAINAGE DISTRICT, in Ohio County, Kentucky. Said assessment or tax hereby levied is for the purpose of cleaning out, repairing and maintaining said ditch and for the payment of any

other legitimate expenses incurred. The tax list and assessment roll have been placed in the hands of the County Treasurer, C. O. Hunter, to whom payment may be made on or before Monday, August 9, 1920, without additional costs. If said assessments are not paid within the time above specified, same will be placed in the hands of the Sheriff to be collected in the same manner as State and County taxes.

Witness our hands, this July 9, 1920.
